In addition to the traditionally high level of competition at the Q. of H., this major annual event is equally important to all members of the ACF because of the annual Winter Business Meeting of the ACF. On the agenda for this year's meeting are such important issues as a. Determination of a site for the 1983 State Championship and b. Voting on the proposed Alabama Gran Prix Series (see page 12). TO: ALL CLUBS AND MEMBERS OF THE ALABAMA CHESS FEDERATION

The present state of the Alabama Chess Federation is not one to be proud of. Of the 400-plus USCF members in Alabama, currently only 250 (approx.) are paid members of the A.C.F.

In the past, a year's membership in the ACF would expire on Labor Day, September 31, at the Alabama State Chess Championship tournament, no matter when it was purchased. In other words, if your membership was purchased in December, June or August, it would expire on September 31st.

Of course this was not "fair", so three years ago an amendment to the Alabama Chess Federation Constitution changed the system so that members would receive a full years membership for their dues. Memberships would now expire at the beginning of the month in which they were purchased one year later.

Obviously, this is a far more equitable system. However, this format can only work when there is a constant core of paid-up members. A lot of our fellow ACFers have a tendency to let their memberships expire and not renew them until the next time they play in a tournament, which could be months or even years later. Sure, you may save a few months "rent", but is it really worth it when you are weakening our State Organization?

This practice, along with the added pressures of inflation, has resulted in the weakening of the ACF's financial stability.

At this date there is currently about \$230 in the ACF treasury. The average cost of printing and mailing the Antics is in excess of \$250. Therefore the limited size of this issue (20 pages as opposed to the usual 24) Also, there are no photographs--they cost more to print.

Added to our plight is the fact that we must keep at least \$50 in our "Chexmaster" checking account (1st Southern Federal) to maintain our free checking account status.

--As I see it, there is only one solution to these problems, and that is for all the members and clubs in the Alabama Chess Federation to work together to sign up new members (and renew old members) until we are back on firm footing.

If every member could sign up just one friend or acquaintance, our troubles would be over. Unfortunately, not everyone will put forth the time and effort needed for this task, therefore it is up to the leaders and the dedicated members and organizations in the state to carry the challenge by signing up as many new members as possible. Which brings us to a....

Builder Drive

A membership drive is now in effect. All you need to do is sign up new members or those whose membership has expired. Collect the dues (\$5 regular and \$3 high school and below. Send the funds in check or money order made out to the Alabama Chess Federation along with the new member's name and complete address to ACF Treasurer Bubba Hendry (see his address under New Officers--page 15). Include your name and address so that we can credit you. A list of leaders in the Builder Drive will be published each issue, and the winners will be honored at the 1983 State Championship.

The following prizes will be awarded:

Individuals:

- 1st--Gold Medal and Free Entry to 1983 State Championship
- 2nd--Silver Chess Medal
- 3rd--Bronze Chess Medal

WINTER KNIGHTS CLASSIC

Here are game scores and other materials for reporting the Winter Knights Classic in any way you may see fit. Alabama CM Brent Inman turned out to be the man of the hour with his powerful performance. Stuart Rachels had a solid performance (no defeats) but early draws kept him from ever being paired up.

Pertinent facts:

- 1) Total prize fund: \$4,000.00; 30-Grand Prix points
- 2) Turnout held to 97: organizers feel heavy rains, flood warnings, and tornado warnings kept entry below 120-150 expected range.
- 3) Average rating of thirty-five man Championship section: 2082.
- 4) Astounding performance of CM Brent Inman of Mobile, tied for 2nd-4th (4 pts.) with a performance rating of 2589!

WINTER KNIGHTS OPEN continued by Lars Britt

As regards the Winter Knights Open, some of the human interest angles were as much fun and full of excitement as the tournament itself. The camaraderie of the Alabama players added greatly to the overall experience.

Friday, the night before the tournament, was a dark and dreary affair, fraught with violent rainstorms.

Joe Jurjevich rolled into town by circuitous routes in his specially air-conditioned Jurjevich-mobile (no rear window and all) with Brent Inman, Joe's personal alarm clock.

Meanwhile, while rocking up "Bloody 98" from Mobile, Squires and Britt had a "Easy Rider"-like experience with some locals at a little Mississippi town in the middle of nowhere.

Arriving at last in Jackson in the rain and wading our way through a swimmers convention in the Lobby, Gerald and I were immediately impressed by the posh and modern accommodations at the Jackson Holiday Inn. And when we saw the playing hall...Wow! In 10 years of tournament chess, never had I seen such room, lighting and lavish decor. Now here was a site befitting the Royal Game.

Well, the tournament site and tournament was fantastic...heck yeah! The only problem at all was that by Sunday, every single "snack" was sold out of every single "snack" vending machine in the mega-motel and I had only 10 minutes between rounds for meals and such. Only Rodger Wilson plays slower than I.

As for Therrell-Rachels and Entourage, only Stuart can banter jokes with the seemingly ominous Boris Kogan. And as for Gerald Squires again, his spectacular performance in the first 2 rounds served to inspire fellow Mobilian Brent Inman to his spectacular performance.

From the Winter Knights Open

by Brent Inman

White: Luismar de Brito (2403)

Black: Brent Inman (2123)

1. e4 e5 I had studied this--the Schliemann Defence to the Ruy Lopez-- a little before this tournament and thought I knew all about it. I didn't.
2. Nf3 Nc6
3. Bb5 f5
4. d4! An exclam. mark because I had never even looked at this line.
4. ... f:e4
5. N:e5 Nf6 Not even considered in ECO. The common move is 5... N:e5 when White is practically forced to sac a piece; e.g., 6. d:e5, c6! 7. Nc3! (7. Bc4?, Qa5+ 8. Nd2, Q:e5 or 7. Be2, Qa5+ 8. Bd2, Q:e5 9. Bh5+, Kd8 [9. ...g6?? 10. Bc3] 10. Bc3, Qe6+) 7. ...c:b5 8. N:e4, d5 9. e:d6, Nf6 10. Qd4, N:e4 11. Q:e4+, Kf7 and after 12. Qd5+ Black has a monumental defensive task--in my opinion. ECO gives 12. Bf4, Qe8 13. Be5, Bd6! 14. Qd5, Qe6 15. Qd6, Qd6 16. Bd6, Re8 17. Kf1, Bf5 Gonzalez-Montalvo, Cuba 1978 where, in my opinion, Black has a decisive advantage if he plays it right.

6. O-O Be7
7. c3 Setting an obvious trap. Very obvious.
7. ... O-O ?!?! I don't know what to give this move. Perhaps I should give a question mark because I didn't see the obvious reply, but, as I demonstrate in the notes, maybe Black can get compensation for the exchange. He doesn't get it by what he plays in the game though.

8. Qb3+ Can you believe I didn't see this? Sheesh!
8. ... d5
9. N:c6 b:c6
10. B:c6 Ba6
11. B:a8 B:f1 Wrong! Though it's hard to see over the board, I really believe Black can drum up strong chances with something like this: 11. ... Q:a8! 12. Rdl (Rel is much better

I think, because the Queen Bishop can't try the following maneuver on move 13) 12. ...c5! 13. Be3 (13. dc?, Bc4 14. Qc2 [14. Qb4, Ng4 15. Be3, N:e3 16. f:e3, Qc6 and Black has an ominous looking attack after 17... B:c5] 13. ... Be2! 14. Rel, c4 15. Q moves Bd3 and Black probably has compensation for the exchange. I think so.

Though I have shown some weak moves by White in these notes, I still think Black looks stronger after 11. ... Q:a8! than B:f1? I would like to play the same moves over against deBrito up to move 11, and try this idea out.

12. B:d5+ Black is lost.
12. ... N:d5
13. K:f1 Kh8
14. c4 This move has been criticised by some, but it allows the Bishop to develop on e3 and makes way for the Knight on c3.

14. ... Nb4
15. Be3 Nd3
16. Nd2? N:f2!
17. Kgl! (If 17. B:f2, Q:d4 18. Nf3, Qf6 regains the piece with a scary attack on White's King.)
17. ... Bg5 What else can I do? If I move my Knight, my e pawn falls and I have no reason for playing on. All I'm doing now is hoping for a miracle. White has all kinds of good

moves here, but in his haste to force the Black Knight to move and simplify to an easily won ending, he makes the losing move.

Here's my miracle. In this position White played:

Unbelievable! This feasible-looking move loses by force (or farce, as the case may be) Watch.

What else can I do? But then, what else could I want to do? This wins in all variations. Incredible!

This allows a forced mate, but White has no defense anyway.

For example: 19. R:f8+, Q:f8 Now, where is the White Bishop to go? 20. B:g5, Qf2+ 21. Khl, Qel+ and its all over.

I don't see anything else either. Now, back to the game!

(22. Kgl, Nh3+ 23. Khl, Qgl++)

I apologized immediately after de Brito resigned; he looked so depressed. It must be extra-hard for a Senior Master to lose by a fluke, especially after he has built up such a clearly won game.

However, what makes one sad makes another happy. This time I was the happy one.

FAYETTE CHESS CLUB CHAMPIONSHIP

Bill Cribbs swept aside all opposition in his quest for the 1982 Fayette Chess Club Championship. Although rated at 1414, Bill knocked off the two top rated players in route to a perfect 4-0 slate. He also upped his rating 119 points and took home the trophy.

Tied for second place with 2.5 points were Steve Wallace, Cris Porter, and Phillip Taylor. Tim Martin directed.

Fellow Chessplayers,

This is the first draft of the proposed Alabama Gran Prix Series. My primary consideration throughout the development of this draft has been to increase individual participation in tournaments and to persuade the local affiliates to conduct more ACF/USCF rated tournaments. As you review it please keep these points in mind. If you don't have the time to review it please give it to an officer of your affiliate. If you are able to go over this draft, feel free to get other members' comments also.

Please review it and send it back with any comments you feel would help. Any and all areas of this draft are open for changes, additions, or deletions.

Keep in mind that the primary emphasis is on increasing overall tourney participation. Therefore, NO consideration has been given to the size of the \$\$ prize funds. This Gran Prix isn't necessarily designed for the best players in the state to win, but it is designed for the most active players whether they are Master or Cat. III players.

Send any comments/recommendations to :

Bill Tompkins

The final draft will be presented at the business meeting during the Queen of Hearts for an acceptance vote. I am going to ask for a trial period beginning with the Queen of Hearts tourney to continue until the Monday before Labor Day.

Thank You,

Bill Tompkins
Wiregrass/Ft. Rucker Chess Club

QOH BUSINESS MEETING

Note: I highly recommend that all ACF members at the Queen of Hearts attend the February ACF Business Meeting (between the 4th & 5th rounds) and vote in favor of the Alabama Gran Prix Series. I further recommend that Bill Tompkins be appointed AGP Co-ordinator.

ALABAMA GRAN PRIX SERIES

1. The purposes in establishing an Alabama Gran Prix (AGP) Series are to:
 - a. Increase participation in Alabama chess tournaments
 - b. Increase membership of the Alabama Chess Federation and the USCF
 - c. Increase the number of ACF/USCF tournaments in Alabama
 - d. Reward tournament participation and playing success
 - e. Increase revenues of the ACF
2. Eligibility
 - a. All members of the ACF are eligible to participate in the AGP.
 - b. Every tournament held in Alabama that requires USCF and ACF membership to enter will automatically be an event of the AGP.
3. Procedures
 - a. The winner of the AGP will be the individual who accumulates the most AGP points during the year.

b. The AGP will be an annual event which will end on the Monday prior to Labor Day. This will allow all points to be tabulated and awards announced during the Alabama State Championship Tournament. The State Championship will be the first event of each year's AGP.

c. AGP points will be awarded on the following basis :

(1) Each entrant of an AGP event will automatically receive one point for playing in the tournament.

(2) Points awarded based on "finishing position" are :

THE 1982 FAIRFIELD GLADE OPEN

by Stuart Rachels

I have now played in six tournaments that Harry Sabine of Crossville, Tennessee, has either directed or just been around. I have won four of the six tournaments. I am seriously considering putting him on the pay-roll. If he was responsible for my performance at the Fairfield Glade this year I need to carry him as a part of my equipment, along with my set and clock.

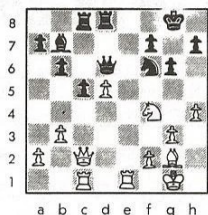

This is by far the strongest tournament that I have ever won. There was one IM, one Senior Master, four other masters and twenty experts. At the onset I was ranked #5. I drew the IM and beat the Senior Master. My score of $4\frac{1}{2}$ - $\frac{1}{2}$ was good enough for clear first and an unofficial rating of 2312.

Mobile County H.S. Chess League

by Lars Britt

The 14th season of the Mobile County High School Chess League got off to one of its' more dramatic starts in October when a pair of perennial powers (Defending State and County Champ McGill-Toolen & 1981-82 Runnerup St. Paul's) fell victim to upset at the hands of a pair of perennial Non-Powers: Murphy and Theodore. Grand Bay, the newest member of the League and a team that has climbed from the Cellar to Title Contention in four short years also opened with a victory and went on to win three matches in a row.

With 4 of 7 rounds completed, the Theodore Bobcats lead the League for the first time ever with a perfect 4-0 slate. The Fairhope Pirates got past arch-nemesis McGill-Toolen this year and hold down second place with an also undefeated $3\frac{1}{2}$ - $\frac{1}{2}$ ledger. Grand Bay's Tigers are third midway through the annual competition.

Each year the Mobile Chess Club presents the Paul Morphy Award (Morphy once attended Spring Hill College here in Mobile) to the outstanding individual boardman in the League. To qualify, a player must contest the majority of his/her seven games on Board One of the 5-man team he/she represents.

Top contenders this year (and their records) are: Trini Rivera (Murphy) 4-0; Spencer Davis (Fairhope) $3\frac{1}{2}$ - $\frac{1}{2}$; Tom "Checkmate" Deck (St. Paul's) $3\frac{1}{2}$ - $\frac{1}{2}$; and James Scheuermann (Williamson) 3-1. Scheuermann's only loss was to Paul Wilson of Theodore (2-2).

St. Paul's hosted the 5th Round February 4th with two matches sharing the limelight: Fairhope vs. Williamson and Grand Bay vs. St. Paul's.

The Fairhope-Williamson clash is crucial in two respects: the Pirates must win the next two rounds to set up a championship showdown with Theodore in the final round and the individual pairing of Davis vs. Scheuermann will have a direct bearing on this year's Morphy Award.

A win is vital to the Title hopes of both St. Paul's ($2\frac{1}{2}$ - $1\frac{1}{2}$) and Grand Bay (3-1). Tom Deck will lead the Saints into a battle for survival against Paul Hinton and the Tigers of Grand Bay, who would like nothing better than to defeat St. Paul's and dedicate the victory to the founder of the Grand Bay Chess Team, Catherine Salvage.
